

# How to View Section Catalog

- Section Catalog is important to see in Pivots and in changing a report because it allows you to see the specific work areas. It is typically not viewable when you open a report from the web.

## Step 1:

1. Go to View and then <click> on Section/Catalog. It will not have a check mark by it. Once you <click> it you will see a check mark by it and the screen will look like the following:

Section/Catalog
